Richard Crawford Bio

A native Scotsman, Richard Crawford grew up with an innate respect for heritage and appreciation for tradition. As a child, he became increasingly interested in culture and history and could often be found at the local airport where he would sit for hours, fascinated by the travelers, captivated by their sophistication and curious about their backgrounds. As an adult, Crawford relishes the opportunity to travel and experience the world firsthand, and never misses an opportunity to share his stories of adventures with others. In 2005, Crawford became the United States Ambassador to The Glenlivet Single Malt Scotch Whisky, and his dream became a career.
